

Privacy Policy

Atiaia Energia considers the issue of privacy to be of great importance. For this reason, the goal of this document is to explain to users how their information is used on our site. It is recommended that users read it carefully.

This Privacy Policy applies to all users of the Atiaia Energia website (<https://www.atiaiaenergia.com.br>), containing clear information about data collection, use, storage and protection.

By using information and services on the Atiaia Energia website, users expressly authorize Atiaia Energia to collect and store their browsing data and their personal and professional information, using them as provided for in this Privacy Policy.

This Privacy Policy is intended to ensure the provisions of the General Data Protection Act or simply LGPD (Law 13.709 / 18).

Collection and Use of User Information

When using the Atiaia Energia website, personal information will be collected which may include, name, e-mail address, contact phone number, gender, date of birth, address, CPF (individual taxpayer identification number) number, photo, position, work experience, educational background, knowledge of other languages, salary and/or wage expectations. The data entered by the user is his/her sole responsibility.

The personal data informed by the user will not be disclosed and will only be stored within the platform, this data is essential to enable contact with the users themselves.

User information may remain stored even after a contact closes or a vacancy is filled. Such storage may occur if it is mandatory to comply with judicial, legal or regulatory obligations to prevent fraud or misuse, as well as to ensure strict compliance with this Privacy Policy and other agreements governing the relationship between Atiaia Energia and users.

Atiaia Energia does not provide, trade or disclose registration information of its Employees and users.

Atiaia Energia may also collect and use professional information from its users. Professional and contact information may be used to: send vacancy notices that are compatible with the user's profile; resolve questions from your users; and/or to bring users closer to the Atiaia Energia companies.

Whenever a user views a job opening on the Atiaia Energia website and actively chooses to send his or her registered resume to a recruiter, the privacy options described in this document apply, so that the resume will only be viewed by properly authorized personnel.

While browsing the Atiaia Energia website, the user also shares their browsing information.

Atiaia Energia also collects the Internet Protocol ("IP") address of the computer or server used by the user to access our applications, logs and other data for the purpose of access control to its platform.

In order to avoid sharing your browsing data, you can choose to disable the cookies in your browser or you can browse anonymously through your browser being used, otherwise be aware that you are sharing your browsing and access data.

Atiaia Energia may also use the user's location data, when access is done through a mobile device, in order to optimize the functionality of the site. The user may disable the use of their location directly on their mobile device.

The browsing experience and functionality of Atiaia Energia's website may be significantly impaired if the user chooses not to share their navigation and location data.

Atiaia Energia also provides access through credentials registered on social networks. By linking to a social network account, you authorize Atiaia Energia to collect your personal information, such as, but not limited to, your name, e-mail, date of birth, telephone number, address, information about your work experiences such as position held, names of companies in which you worked, period of experience, descriptions of experiences and competences, education information such as undergraduate level, courses taken and respective institutions, as well as your profile picture, associating them with your registration with Atiaia Energia. Atiaia Energia will not perform any kind of posting or sharing on its social network on behalf of the user.

The user agrees that information provided directly to profiles maintained on social networks will be governed by the Terms of Use and Privacy Policies of the respective social network.

Communication

Any communication from Atiaia Energia to its users will be solely for the purpose of providing relevant notifications about the use of its platform and its products and features, and they may also send informational and promotional messages. It is emphasized that Atiaia Energia does not send any kind of SPAM.

Atiaia Energia messages are sent only to the email address registered by the user. Atiaia Energia does not collect e-mail addresses from mailing lists, non-commercial websites and does not practice buying or selling of mailing lists.

Atiaia Energia's communications are sent only to e-mail addresses registered by the users themselves and the receipt of communications may be interrupted at any time, through a link located at the end of the messages or by sending a message to comunicacao@grupocorneliobrennand.com.br.

Any request to delete e-mail addresses, personal or professional data will be promptly attended to.

Security

The user's access to his/her registration will be done through a confidential and personal login and password, with the user being responsible for its safekeeping and confidentiality.

Atiaia Energia will always observe the rules applicable to the security of your data, in addition to using security measures for navigation to protect against any unauthorized access. The user is aware of the susceptibility to failures and vulnerabilities due to the fact that it is content available on the Internet, but Atiaia Energia is committed to directing its best efforts to avoid these situations.

Prohibited Actions

Any use of devices, software, scripts, or any other mechanism such as: robot, crawler, data mining, data scraping, social networking profile and others is strictly prohibited.

No forms of reverse engineering will be tolerated, whether to disassemble, decrypt, decompile or otherwise attempt to copy the source code or any other intellectual property content available in the Atiaia Energia's environment. No action that may compromise the functionality of Atiaia Energia's website and/or tools is allowed.

Reproduction, publication, sharing, even in part, of any content on the Atiaia Energia Web site is prohibited by any means, including but not limited to social networks, blogs and virtual communities.
